

Bloomberg Law Dashboard Legal

NOW AVAILABLE

Introducing Dash, your AI assistant in Dashboard Legal

Ask for summaries, deadlines, and updates in plain English and Dash will bring you up to speed.

Available for eligible Dashboard Legal users.

ORIENT

Get up to speed in the same place as the work

Summarize what matters

Ask for a quick readout on a board, workstream, or checklist – including progress, recent changes, overdue concentrations, and next steps.

Restore context fast

Use prompts like “catch me up,” “what changed since last week,” or “what’s outstanding” to quickly re-enter a matter.

Stay close to the work

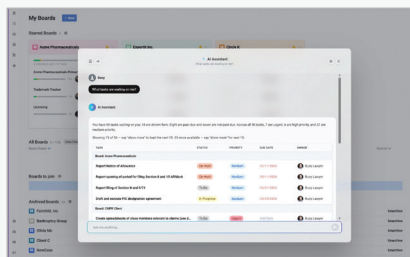

Dash can use available Dashboard Legal context – such as the board or workstream you are viewing, recent chat context, and “my items” – to keep answers connected to the work.

PRIORITIZE

See what needs attention next

Dash helps surface upcoming deadlines, overdue tasks, unassigned work, stalled items, and matter-level risk signals so teams can focus faster.

TASK	STATUS	PRIORITY	DUE DATE	OWNER
Workstream Board B				
Report Board B (Board B) - 11/15/2024	On Track	High	11/15/2024	A. Smith
Board B (Board B) - 11/15/2024	On Track	High	11/15/2024	A. Smith
Board B (Board B) - 11/15/2024	On Track	High	11/15/2024	A. Smith
Board B (Board B) - 11/15/2024	On Track	High	11/15/2024	A. Smith
Board B (Board B) - 11/15/2024	On Track	High	11/15/2024	A. Smith
Board B (Board B) - 11/15/2024	On Track	High	11/15/2024	A. Smith
Board B (Board B) - 11/15/2024	On Track	High	11/15/2024	A. Smith
Board B (Board B) - 11/15/2024	On Track	High	11/15/2024	A. Smith
Board B (Board B) - 11/15/2024	On Track	High	11/15/2024	A. Smith

TASK	STATUS	OWNER	DUE DATE
Task 1	On Track	Owner 1	Due Date 1
Task 2	On Track	Owner 2	Due Date 2

Task 8	On Track	Owner 8	Due Date 8
Task 9	On Track	Owner 9	Due Date 9
Task 10	On Track	Owner 10	Due Date 10

Upcoming and overdue work

Ask what is due today, this week, before a specific date, or assigned to a person. Dash can find work by timeframe, board, or assignee, with results organized by supported Dashboard Legal structures.

What should I focus on?

Dash can help identify overdue, due-soon, and high-priority items so users can review what may need attention first.

Find slippage before it spreads

Ask about risks, bottlenecks, unassigned work, missing dates, or stalled tasks across supported boards and workstreams.

ACT

From question to action in four steps

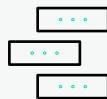

STEP 1

Ask Dash

Use natural language to summarize, search, prioritize, or update work.

STEP 2

Review the match

Dash shows the relevant board, workstream, checklist, or task before action.

STEP 3

Approve the change

Supported edits use a confirmation preview so users can verify the update before it is applied.

STEP 4

Undo supported task-level change

Where available, supported task-level changes can be reversed using the Undo control.

Move the open filing task to next Monday.

D

I found one matching task. Review the proposed due-date change below.

ASSISTANT

AI assistance designed around Dashboard Legal workflows

Dash is focused on the matter work already organized in Dashboard Legal – boards, workstreams, checklists, tasks, owners, deadlines, notes, and activity.

- ✓ Board and workstream summaries
- ✓ Upcoming and overdue task retrieval
- ✓ Recent activity and status updates
- ✓ Risk and slippage checks
- ✓ Task search and filtering
- ✓ Supported item creation and edits
- ✓ with approval
 - Undo controls for supported task-level changes

Designed for quick orientation, daily prioritization, and coordinated follow-through.

PROMPTS

Ask Dash what needs your attention

Use natural language prompts to move from scattered task data to a clearer view of matter progress, ownership, deadlines, and risk.

- Summarize this board.
- What's overdue?
- What changed since last week?
- Which overdue or due-soon items need attention today?
- What's due before next Friday?
- Group upcoming tasks by board.
- Find tasks assigned to me.
- Show me risks across my matters.
- Catch me up on this workstream.
- What do I owe to clients right now?
- Which items are stalled?
- Move this task to next Monday.
- Mark this item high priority.
- Add a task for the filing package.
- Draft a status update from this board.

Powerful AI assistance – built for how legal teams work

Dash is designed to help users manage Dashboard Legal work, not replace legal judgment or operate across unsupported systems.

Dashboard Legal provides the work context

Boards, workstreams, checklists, tasks, owners, deadlines, notes, matter activity, and audit history remain the source of truth.

Dash helps users understand and act

Users can ask for summaries, deadlines, risks, recent changes, task search, and supported item edits.

Users stay in control

Important results should be reviewed, and supported edits require confirmation before action.

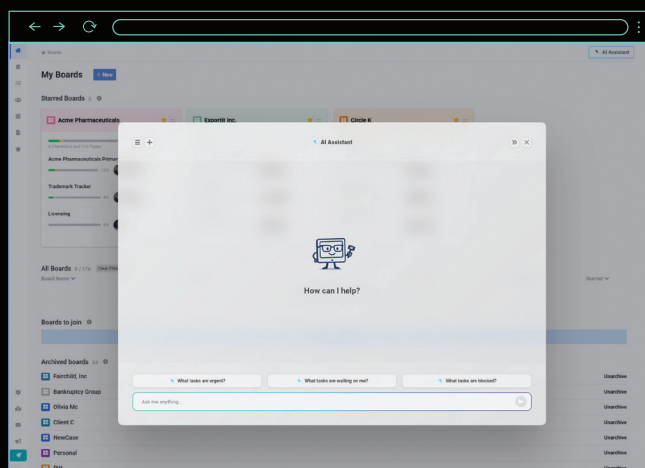

AI where you need it

Dash focuses on matter management. It does not perform legal research, draft legal advice, read or edit document files, access email or calendars, or search external systems.

Instead, Dash brings orientation, prioritization, and supported workflow action into the place where legal teams already manage matter progress.

Ask Dash. Move legal work forward.
