

Portfolio  
Alignment  
Team

In June 2021, the Portfolio Alignment Team (PAT) released a draft version of its report *Measuring Portfolio Alignment: Technical Supplement* for consultation in response to a request from the Task Force on Climate-related Financial Disclosures (TCFD) for information on portfolio alignment approaches. The report outlined the PAT's views on portfolio alignment metrics and areas of further work as a resource for organizations interested in exploring portfolio alignment.

On behalf of the PAT, the TCFD hosted a public consultation on *Measuring Portfolio Alignment: Technical Supplement* between June 7, 2021 and July 18, 2021. The PAT updated its report based on feedback received in response to the consultation and released the final version, *Measuring Portfolio Alignment: Technical Considerations*, on October 14, 2021.

**The final version has superseded the consultation version of this report.
