

# TCFD Document Index

---

## INTRODUCTORY MATERIALS

---

Overviews of the Task Force’s work and implementation resources.

### TCFD Overview Booklet

#### November 2022

This summary booklet provides a brief overview of the Task Force’s remit and work.

---

## IMPLEMENTATION GUIDANCE

---

Original and updated versions of the Task Force’s all sector and sector-specific guidance on implementing the TCFD recommendations.

### Annex: Implementing the Recommendations of the Task Force on Climate-related Financial Disclosures

#### 2021

The 2021 TCFD “Annex” updates and supersedes the 2017 version of “Implementing the Recommendations of the TCFD. It provides both general and sector-specific guidance on implementing the Task Force’s disclosure recommendations. Updates reflect the evolution of disclosure practices, approaches, and user needs.

This report is also available in [Japanese](#).

### Annex: Implementing the Recommendations of the Task Force on Climate-related Financial Disclosures

#### 2017

The 2017 TCFD “Annex” provides both general and sector-specific guidance on implementing the Task Force’s disclosure recommendations. The 2017 version has been superseded by the 2021 Annex.

This report is also available in [Simplified Chinese](#), [Korean](#), and [Portuguese](#).

### Summary of Changes: 2017 to 2021 TCFD Annex

#### 2021

This presentation provides a description of changes made to the TCFD Annex in 2021.

---

## RECOMMENDATIONS

---

Report describing the Task Force’s final disclosure recommendations

### Recommendations of the Task Force on Climate-related Financial Disclosures

#### 2017

The 2017 TCFD recommendations report outlines the TCFD framework for reporting climate-related financial information.

This report is also available in [Simplified Chinese](#), [Traditional Chinese](#), [Korean](#), [Japanese](#), [Spanish](#), and [Portuguese](#).

---

## STATUS REPORTS

---

Annual reports on the state of climate-related disclosure and TCFD implementation efforts, insights, and challenges. The various reports contain reviews of companies’ climate-related disclosures by region and industry, examples of disclosure, case studies by users and preparers of disclosure on TCFD implementation and the usefulness of TCFD-aligned information, survey results, and summaries of initiatives furthering TCFD-aligned reporting, including regulatory and standards setting efforts.

### TCFD 2022 Status Report

### TCFD 2021 Status Report

This report is also available in [Simplified Chinese](#).

### TCFD 2020 Status Report

### TCFD 2019 Status Report

### TCFD 2018 Status Report

---

## ADDITIONAL SUPPORTING GUIDANCE

---

Targeted guidance providing context and resources to help preparers implement key elements of the TCFD recommendations.

### Guidance on Metrics, Targets, and Transition Plans

#### 2021

The Metrics, Targets, and Transition Plans guidance describes recent developments around climate-related metrics and users' increasing focus on information describing organizations' plans for transitioning to a low-carbon economy. The guidance also describes a set of cross-industry, climate-related metric categories that the Task Force believes all organizations can disclose.

This report is also available in [Simplified Chinese](#) and [Japanese](#).

### Guidance on Scenario Analysis for Non-Financial Companies

#### 2020

This 2020 guidance is intended to assist non-financial companies interested in using climate-related scenarios as part of their efforts to implement the Task Force's recommendations. The scenario analysis guidance provides practical, process-oriented ways for companies to use climate-related scenario analysis and ideas for disclosing the resilience of their strategies to different climate-related scenarios.

This report is also available in [Simplified Chinese](#).

### Guidance on Risk Management Integration and Disclosure

#### 2020

This 2020 guidance is aimed at companies interested in integrating climate-related risks into their existing risk management processes and disclosing information on their risk management processes in alignment with the Task Force's recommendations.

This report is also available in [Simplified Chinese](#).

### The Use of Scenario Analysis in Disclosure of Climate-Related Risks and Opportunities

#### 2017

The Technical Supplement advises companies on conducting climate-related scenario analysis, a fundamental tool that helps companies plan for and disclose information on their resilience.

This report is also available in [Simplified Chinese](#).

---

## WORKSHOPS IN A BOX

---

Workshops in a Box is a set of five presentations assembled in 2022 for use in introductory workshops on the TCFD recommendations. They should be used to support adoption and implementation.

The first workshop presentation introduces the TCFD and an overview of the four TCFD recommendations for climate-related financial disclosure.

The remaining four workshop presentations provide more details on each of the TCFD recommendations, including example disclosures.

### Fundamentals Workshop

### Governance Workshop

### Strategy Workshop

### Risk Management Workshop

### Metrics and Targets Workshop

---

## HISTORICAL MATERIALS

---

Early reports, report drafts, and past public consultation materials.

### TCFD Public Consultation on Metrics, Targets, and Transition Plans

#### June 7–July 18, 2021

In 2021 the Task Force sought public comment on two documents: *Proposed Guidance on Climate-related Metrics, Targets, and Transition Plans* and the Portfolio Alignment Team's (PAT) *Measuring Portfolio Alignment: Technical Supplement*. The public consultation closed July 18, 2021.

### Summary of Responses to the TCFD Public Consultation on Metrics, Targets, and Transition Plans

#### 2021

This document summarizes responses to the Task Force's public consultation on metrics, targets, and transition plans, held from June to July 2021.

### TCFD Public Consultation on Forward-Looking Financial Sector Metrics

#### October 29, 2020–January 28, 2021

The Task Force conducted this public consultation to gather feedback on various forward-looking climate-related metrics for the financial sector, including usefulness and challenges.

### **Summary of Responses to the TCFD Public Consultation on Forward-Looking Financial Sector Metrics**

**2021**

This document summarizes responses to the Task Force's public consultation on forward-looking climate-related metrics for the financial sector, held from October 2020 to January 2021.

### **Summary of Key Changes and Clarifications to the TCFD Report and Annex**

**June 2017**

This document provides a summary of the changes made to the TCFD report and Annex in response to feedback to the December 2016 public consultation on the draft TCFD report and Annex.

### **Summary of Responses to the TCFD Public Consultation on the December 2016 Draft TCFD Report**

**April 2017**

This presentation provides a summary of the feedback received in response to the Task Force's December 2016 public consultation on the draft TCFD report and Annex.

### **Draft Report: Recommendations of the Task Force on Climate-related Financial Disclosures**

**December 2016**

The Task Force issued this draft report and recommendations for public consultation in December 2016.

### **Draft Annex: Implementing the Recommendations of the TCFD**

**December 2016**

The Task Force issued this draft annex, which provides guidance to help companies implement its recommendations, for public consultation in December 2016.

### **Draft Technical Supplement The Use of Scenario Analysis in Disclosure of Climate-Related Risks and Opportunities**

**December 2016**

The Task Force issued this draft technical supplement, which provides information and resources on climate-related scenario analysis, for public consultation in December 2016.

### **TCFD Phase I Report**

**March 2016**

The Task Force issued this Phase I report in March 2016 to outline its scope, objectives, and approach for the development of its disclosure recommendations.
