

Blue Clock

(Note: Add 7 seconds to all times to account for 7-second delay.)

(Exceptions: Weekday 3pm ET hour begins 2:59:30pm, weekday 4pm ET hour begins 3:58:00pm.)

**Bloomberg
Radio**

Red Clock

(Note: Add 7 seconds to all times to account for 7-second delay.)

(Clock identical to "Blue Clock" except show segment that begins at :21:30 runs 30-seconds longer, and break that follows is 30-seconds shorter.)

(Exception: Weekday 5am ET hour begins 4:59:40am.)

**Bloomberg
Radio**

Black Clock

(Note: Add 7 seconds to all times to account for 7-second delay.)

**Bloomberg
Radio**

Yellow Clock

(Note: Add 7 seconds to all times to account for 7-second delay.)

(Clock identical to "Blue Clock" except local break at :52-past in only 60-seconds duration, and last show segment thus begins at :53-past and is 59:50 duration.)

**Bloomberg
Radio**

Purple Clock

(Note: Add 7 seconds to all times to account for 7-second delay.)

**Bloomberg
Radio**

Purple Clock (Alternate)

(Note: Add 7 seconds to all times to account for 7-second delay.)

Green Clock

(Note: Add 7 seconds to all times to account for 7-second delay.)
