Accessing Index Data

Bloomberg Terminal®

- I<GO> - Overview of Bloomberg Indices and how to access them.
- IN<GO> - The Bloomberg Index Browser displays the latest performance results and statistics for the indices as well as history. IN presents the indices that make up Bloomberg's global, multi-asset class index families into a hierarchical view, facilitating navigation and comparisons. The "My Indices" tab allows a user to focus on a set of favorite indices.
- DES<GO> - The index description page provides transparency into the current index universe including membership information, aggregated characteristics and returns, and historical data.
- INP<GO> - The Bloomberg Indices Publications page, which includes methodologies, factsheets, monthly reports, announcements, and technical notes. A user may also subscribe to index publications via the "Actions" button.
- PORT<GO> - Bloomberg's Portfolio & Risk Analytics solution includes tools to analyze the risk, return, and current structure of indices. PORT includes tools to analyze performance of a portfolio versus a benchmark as well as models for performance attribution, tracking error analysis, value-at-risk, scenario analysis, and optimization.

Bloomberg Indices Website (www.bloomberg.com/indices)

This index website makes available limited index information including:

- Index methodology and factsheets.
- Current Performance numbers for select indices.

Data Distribution

Index subscribers may choose to receive index data in the files. Files may include:

- Index level and/or constituent level returns and characteristics for any indices.
- Automated delivery of files via email via SFTP.
- Index data is also available via authorized redistributors.

Index Licensing

Bloomberg requires an index data license for services and products linked to the indices. For example:

- Index or Constituent-Level Redistribution
- Exchange Traded Products (ETFs & ETNs)
- OTC Derivative Products
- Custom Index Solutions
- Separately Managed Accounts (SMAs)
