Opportunities Generated:
Ideas, insights and connections for a cleaner, more competitive future.
The BNEF Summit has been connecting leaders in energy, industry, transport, technology, finance and government since 2008, providing the ideas, insights and connections to formulate successful strategies, capitalize on technological change and shape a cleaner, more competitive future.

It consists of six premier, invitation-only forums in London, Munich, New Delhi, New York, San Francisco, and Shanghai convening 3,000 leaders and strategists as well as mainstream and trade press every year. In 2022 we add a special event in Bali alongside the B20 and G20 in Indonesia with the support of KADIN and CMMIA.

While physical convening is constrained due to COVID-19, the BNEF Summit will be delivered virtually. As restrictions on physical gatherings are lifted, the Summits will evolve to a hybrid format with attendance both in-person and virtually.

It is one of the best platforms for thought leadership and strategic business development in the industry.

BNEF Summits are delivered via

- High quality stream of live and pre-recorded footage from our own teams and external speakers, combined with:
  - Audience interaction tools, Q&A, polling, networking, delivered online via
    - A simple password protected URL for attendees
    - A professional online studio environment and technical support for speakers
    - Integrated with BNEFs’ existing systems for a seamless community experience
- Available on web and mobile
- Sponsors receive full tech support and any pre-event testing needed to ensure quality and accessibility, including pre-recording where necessary.
BloombergNEF (BNEF) is a strategic research provider covering global commodity markets and the disruptive technologies driving the transition to a low-carbon economy.

Our expert coverage assesses pathways for the power, transport, industry, buildings and agriculture sectors to adapt to the energy transition.

We help commodity trading, corporate strategy, finance and policy professionals navigate change and generate opportunities.
