Approved Publication Arrangement (“APA”) Market Data Fees Disclosure

1 Real Time Data

This section sets out BDRSL’s price list for licences to access and use market data within the first 15 minutes of its publication by BDRSL (“**Real Time Data**”)¹. This is a summary of key terms. Full terms and conditions are set forth in (a) the BDRSL Data Subscription Agreement, which all subscribers must sign before receiving access to Real Time Data under paragraph 1.1 below, and/or exercising the derived rights under paragraph 1.2 below, and (b) the BDRSL Data Distribution Agreement, which all distributors must sign before receiving the distribution licence under paragraph 2 below.²

1.1 View Only³ - Individual End User Rights

Post-Trade Data	Post-Trade Data (Disaggregated)
\$20 per month	\$10 per month for a single disaggregation \$3 per month for each additional disaggregation

The view-only rights licence is priced on a per individual end user basis and is the same regardless of whether the individual end user accesses the data through BDRSL directly or via a distributor (see below).

Data may be disaggregated by (a) asset class; (b) sovereign debt country of issue; and (c) currency in which the financial instrument is traded.

1.2 Derived rights⁴ - Entity Rights

End User Post-Trade Data	End User Post-Trade Data (Disaggregated)
\$6,250 per month	\$3,125 per month for a single disaggregation \$1,000 per month for each additional disaggregation

¹ Please note that all currency amounts in this disclosure are in United States Dollars. All fees are billed quarterly in arrears.

² The BDRSL Data Subscription Agreement and the BDRSL Data Distribution Agreement are available upon request.

³ The rights include rights to conduct basic analytics but no derived rights. Further details of the conditions of the licence are available upon request.

⁴ The derived rights licence only covers internal proprietary use of the data for (a) creating algorithms; (b) price formation; or (c) in risk engines. For the avoidance of doubt, these internal use rights do not include index creation, financial instrument creation or any other derived rights. Any other derived rights for Real Time Data must be preapproved by BDRSL. Further details of the conditions of the licence are available upon request.

The derived rights licence is priced on a per legal entity basis (rather than on an individual end user basis).

Data may be disaggregated by (a) asset class; (b) sovereign debt country of issue; and (c) currency in which the financial instrument is traded.

Any non-internal or non-proprietary use of the Delayed Data is subject to pre-approval by BDRSL and may be chargeable.

BDRSL will provide advance disclosure with a minimum of 90 days’ notice of future price changes on the BDRSL APA public website.
