Press the <HELP>
key twice for instant
live assistance.

The BLOOMBERG PROFESSIONAL service, BLOOMBERG Data and BLOOMBERG Order Management Systems (the "Services") are owned and distributed locally by Bloomberg Finance L.P. ("BFLP") and its subsidiaries in all jurisdictions other than Argentina, Bermuda, China, India, Japan and Korea (the "BLP Countries"). BFLP is a wholly-owned subsidiary of Bloomberg L.P. ("BLP"). BLP provides BFLP with all global marketing and operational support and service for the Services and distributes the Services either directly or through a non-BFLP subsidiary in the BLP Countries. The Services include electronic trading and order-routing services, which are available only to sophisticated institutional investors and only where the necessary legal clearances have been obtained. BFLP, BLP and their affiliates do not provide investment advice or guarantee the accuracy of prices or information in the Services. Nothing on the Services shall constitute an offering of financial instruments by BFLP, BLP or their affiliates. BLOOMBERG, BLOOMBERG PROFESSIONAL, BLOOMBERG MARKETS, BLOOMBERG NEWS, BLOOMBERG ANYWHERE, BLOOMBERG TRADEBOOK, BLOOMBERG BONDTRADER, BLOOMBERG TELEVISION, BLOOMBERG RADIO, BLOOMBERG PRESS and BLOOMBERG.COM are trademarks and service marks of BFLP, a Delaware limited partnership, or its subsidiaries.

Bloomberg Anywhere users have access to their information on a variety of mobile platforms including iPhone, iPad and Android-based devices. All software for mobile platforms is available via our mobile software site, <https://www.bloomberg.com/professional/products/bloomberg-terminal/access/bloomberg-professional-app/>

NOTE: The volume of data transferred by Bloomberg mobile applications varies according to how the applications are used. Bloomberg suggests customers concerned about data costs distribute the application to a representative set of users and monitor data usage in a variety of scenarios.

iPhone & iPad Requirements

- Please find iPhone and iPad minimum OS requirements on <https://itunes.apple.com/app/bloomberg-anywhere/id407761767>
- Bloomberg recommends that devices are updated to the latest OS version.
- Bloomberg software is not supported on “jailbroken” devices for security reasons.
- To ensure Apple push notifications are available additional configuration may be required. See <https://support.apple.com/en-gb/HT203609> for further details.
- Please refer to **General Device Connectivity Requirements** below for details of required network connectivity.

Android Requirements

- Please find Android minimum OS requirements on <https://play.google.com/store/apps/details?id=com.bloomberg.android.anywhere&hl=en>
- To ensure Android push notifications are available additional configuration may be required. See https://firebase.google.com/docs/cloud-messaging/concept-options#ports_and_your_firewall
- Please refer to **General Device Connectivity Requirements** below for details of required network connectivity.

General Device Connectivity Requirements

The application makes data connections to a number of network endpoints to communicate with Bloomberg. These must be reachable over the network.

In situations where devices connect directly via mobile data networks, no additional device configuration should be necessary.

When connecting via a Wi-Fi network, particularly within restricted corporate environments, additional configuration may be required to ensure that the necessary endpoints are accessible. Please ensure that the requirements below are met.

HTTP Proxies

HTTP proxies should be configured to allow traffic to the following domains:

Global DNS Name	Ports
*.bloomberg.com	443
*.bloomberg.net	
*.blpprofessional.com	
assets.bwbx.io	

China Specific DNS Name	Ports
*.bloomberg.net	443
*.blpprofessional.com	
*.blpprofessional.cn	
assets.bwbx.io	

Proxies should not use SSL interception. The Bloomberg Professional application may use certificate pinning to ensure that it only communicates with authentic Bloomberg endpoints.
