Choose Any Combination of Mobile Archiving
Methods for BYOD and Enterprise Phones

Text Messages and Calls including SMS, MMS, Voice Calls

Network Archiver

- Messages and calls are captured directly from the mobile carrier network
- Can work for legacy phones. Enterprise only, not for BYOD

Android Archiver

- A lightweight agent is installed on the employee's Android device
- SMS, MMS and calls are seamlessly uploaded to the company archive

Enterprise Number Archiver

- Employee installs an app with a company provided enterprise number on their mobile
- All chats and calls over the Enterprise Number are being captured and archived

Voice Call Archiver

- Archive regular mobile calls on your native mobile number
- Forward and route mobile calls via a TeleMessage recording gateway

Mobile Instant Messaging Chats and Calls: WhatsApp, WeChat, Telegram, Signal

WhatsApp Archiver

- Archive WhatsApp calls, text, chats, images, files and deleted messages
- Works for WhatsApp on your mobile, or with WhatsApp Web and WhatsApp Desktop

WeChat Archiver

- Archive WeChat calls, text, chats, images, files and deleted messages
- Works with the Tencent WeCom app on your mobile or on your desktop

Telegram Archiver

- Archive Telegram calls, text, chats, images, files and deleted items
- Works for Telegram on your mobile, on the web or on your desktop

Signal Archiver

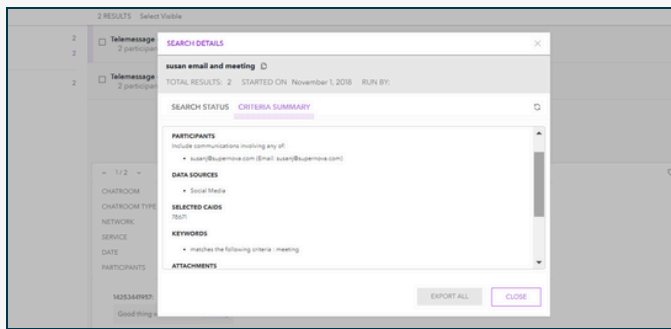

- Archive Signal calls, text, chats, images, files and deleted items
- Works for Signal on your mobile or on your desktop
