

Bloomberg Fix Network - Fixnet

FixNet connects client's trading systems to sell side counterparties/destinations across the globe. FixNet offers Pre, In, and Post Trade workflows supporting full trade lifecycle. FixNet provides a scalable solution through its extensive connectivity across the globe; just one connection provides access to our entire universe of counterparties. FixNet is a multi-asset connectivity solution for exchange listed fixed income and foreign exchange securities.

Features:

- Global multi-asset network, including emerging markets destinations
- Both Buy and Sell Side clients can access Bloomberg's entire network from a single connection
- Tap into the power of the Terminal; seamlessly comingle your trade data with Bloomberg analytics, news, and more
- Data visualization and real-time TCA tools to monitor and manage trading
- Content sharing tools that facilitate communication between traders, sell side and portfolio managers in real-time
- Network access for one flat monthly fee, regardless of location or trade volumes

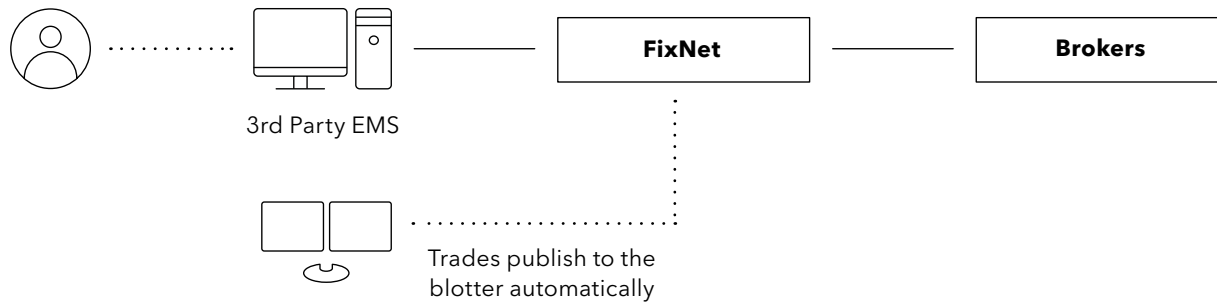

Asset Coverage	All Asset Types

Trade	Orders RFQ Multi-Leg List / Basket / Portfolio Venues (Bloomberg FIT, FXGO)
Post Trade	Allocations Confirm / Affirm Drop Copy
Analytics	Bloomberg Terminal
Integration Options	FIX and Programmable API

Empower Yourself with Bloomberg

FixNet manages the network of buy side and sell side clients. Buy side establishes a connection with FixNet hub which manages the network of sell side firms. Buy side orders / RFQs are routed by FixNet to target counterparties. FixNet securely publishes trade data in real time to Bloomberg for analysis. By using Bloomberg as a network vendor, your reach can be extended to hundreds of existing counterparties.

How it works

As orders are routed through FixNet, traders see a real-time view of trading activity in their blotter.

Learn more

Not only does Bloomberg's Multi-Asset Risk System help address the needs you have today, it also prepares you for those to come. To learn more about Bloomberg's risk solutions, visit [RISK <GO>](#) or contact us at riskinfo@bloomberg.net.
